

### **FY21 ADOPTED BUDGET**

Prepared and Presented By: Tyrell T. Morris, MBA CPE Executive Director

Presented to the New Orleans City Council Monday, November 16<sup>th</sup>, 2020

Public Discussion with Executive Director Monday, November 16<sup>th</sup>, 2020

Scheduled Adoption by the OPCD Board of Commissioners Tuesday, November 17<sup>th</sup>, 2020

### ORLEANS PARISH COMMUNICATION DISTRICT 2021 BUDGET MESSAGE PREPARED IN ACCORDANCE WITH <u>LRS 39:1305 (C,1)</u>

### I. Summary Description of Financial Plan

The Orleans Parish Communication District (OPCD) was established by Act 155 (1982 Regular Session) as amended. The governing authority of the District is an 11-member Board of Commissioners as provided for by law. The OPCD was created to provide E9-1-1 service throughout Orleans Parish. As a political subdivision of the State, OPCD receives funding through a cooperative endeavor agreement with the City of New Orleans, revenue from a state imposed 9-1-1 surcharge on telecommunication devices and accounts and may receive funding by direct appropriation from the state of Louisiana.

The attached proposed budget of OPCD reflects revenue generated from service charges collected from the customers of wireline, wireless, and prepaid wireless providers whose users have a billing address in Orleans Parish. These service charges are used to support the E9-1-1 system through the direct defrayal of system costs, operations, administrative support, training personnel, providing public information, researching and developing plans and proposals, purchasing and installing E9-1-1 equipment and related software, and providing the technical and engineering expertise to operate and maintain OPCD's E9-1-1 system. Additionally, OPCD is responsible for the building, maintenance, and operation of the Chief Warren E. McDaniels, Sr. 9-1-1 Center (built in 2011), the Administration Building (renovated in 2014-2015), and the Roman Capitol Building.

OPCD and the City of New Orleans have negotiated a Cooperative Endeavor Agreement that will provide for the consolidation of E9-1-1 call-taking and dispatching under one entity which was completed on May 1<sup>st</sup>, 2016. All telecommunicators, dispatchers and supervisors are employees of OPCD which was resulted in the agency consistently exceeding national standards. To further consolidate public safety operations, OPCD assumed management of 3-1-1 services in January 2019. Following several major cities, the consolidating of 3-1-1 and 9-1-1 has will ensure residents of the City of New Orleans will have access to government services from multiple entities 24/7 and during emergencies. As the city has been gripped by the impacts of the COVID-19 global pandemic, 3-1-1 services became a lifeline for residents needing the basic essentials such as food, clothing and medical assistance.

### II. Mission and Objective of OPCD

The mission of OPCD is very simple. To get the right people, to the right place, at the right time; better than anyone else in the world. OPCD is regarded as an international efficient, effective and innovative emergency communications agency. The emergency communications network across the nation is aging and beginning to show frequent instances of failure. OPCD is being very proactive to remain on the bleeding edge of the latest technology available to aid in the execution of our mission. In 2020, we celebrated many new technology enhancements to include the city-wide deployment of Text-2-911 and the consolidated mobile computer aided dispatch system. Next year will be no different as this budget includes a fork-lift upgrade to our entire 911 infrastructure to an IP based Emergency Services Internet Network (ESINet). Also included in a replacement of our aging telephony system and finally bringing pictures and video to 9-1-1 and field responders.

#### **III. Financial Policies**

**Reserve Funds** – As of November 11<sup>th</sup>, 2020 \$607,006 is available in reserve funds.

Traditionally OPCD has maintained a very healthy reserve fund around four million dollars. The fund was established to ensure redundancy of the system should it experience a catastrophic failure. Over the last two years OPCD has had to rely on these funds to close operational gaps and fund much needed improvements to our campus and technology infrastructure. We believe the current balance of the reserve funds is sufficient should the agency need to make emergency purchases to protect the integrity of our mission.

**Fee Policy** – Currently, the monthly E9-1-1 fees are \$1.00 per access line for residential, \$2.00 per access line for commercial, and \$1.25 per access line for wireless and VoIP business and residential. The wireless fee was raised during 2016 from .85 to 1.25 as per Legislative Act 665 passed at the 2016 regular session. Act 665 also required a fee of \$1.25 for VoIP. Thus, Business VoIP decreased and Residential VoIP increased. The increase went into effect August 1<sup>st</sup>, 2016. These fees are remitted directly to OPCD.

Over the last couple of years, we have seen a decrease in landline fees in the Parish but an increase in wireless fee revenue. OPCD is laser-focused on ensuring compliance with commercial fee remittance after many discrepancies were discovered in an audit in 2019.

**Debt Issuance and Management** –OPCD currently has no debt.

Balancing the Operating Budget – OPCD is required by law to have a balanced budget.

#### **IV. Assumptions and Budgetary Basis**

The budgets for all funds are prepared using the accrual basis of accounting, with exceptions listed below. Under the accrual method, revenues are recorded when earned and expenses are recorded at the time liabilities will be paid.

- 1. Capital outlay is budgeted as expenditure in the year purchased.
- 2. Depreciation is not budgeted.
- 3. Interest capitalized on construction projects is budgeted as interest expense.
- 4. Proceeds from the issuance of debt are revenues, not an increase in liabilities.
- 5. Principal payments are shown as expenditures rather than reductions of the liability.
- 6. Encumbrances are treated as expenditures in the year they are expended not when encumbered.
- 7. Grants obtained for the construction of assets are revenues, not capital contributions.
- 8. Proceeds from the sale of assets are recognized as revenue; however, the related gain or loss is not.
- 9. Purchases of inventory are expenditures when purchased, not when sold or used.
- 10. Debt issue and discount costs are expended when paid, not capitalized and amortized over the life of the bonds.
- 11. Gains or losses on the early retirement of debt are considered to increase or decrease the funds available in the year in which they occur and are not capitalized and amortized over the life of the bonds.
- 12. Project length (continuing appropriation or projects that span more than one year) budgets are reductions of funds available when expended, not appropriated.

OPCD follows standard recognized and accepted accounting practices for making estimates and projections. OPCD has a separate auditing contract with Duplantier, Hrapmann, Hogan & Maher, LLP to audit OPCD's financial records. Each audit report is submitted to the Louisiana Legislative Auditor.

### V. Important Features of the 2021 Budget

#### A. Budget Format

The budget represents operations and capital expenditures.

The revenue category is divided into five subcategories: revenue from wireline service charges; revenue from wireless service charges; revenue from prepaid wireless service charges, allocation of funds from the City of New Orleans and Other Income.

The expenditure categories are: Personnel; Contractual and Professional Services; Supplies; and Capital Acquisitions. Each major expenditure category, in turn, is further subcategorized. Brief descriptions are provided next to major expenditures.

Following is a list of where major budget sections can be found:

Budget Summary	Page 1
FTE Report*	Page 2
Personnel Summary	Pages 3
Other Operating Expenses	Page 4

\*OPCD is not proposing any changes to the FTE count from prior year

### B. Substantive Highlights

**Projected Revenues:** The 2021 revenue projections are conservative as we expect the 9-1-1 surcharge revenues to be impacted by the economic activities surrounding the COVID-19 global pandemic.

**Personnel:** The 2021 personnel expenditures have declined due to several retirements of employees essentially reducing the salary liabilities.

<u>Contractual and Professional Services</u>: The increase in contractual and professional services is due to an increase in our cyber security position as well as funding new technology such as text, picture and video to 9-1-1 services.

**Equipment/Project/Facilities:** The OPCD main facilities are beginning to show their age and are in neede of some repairs to ensure there are no service interruptions.

**<u>Capital Expenditures</u>**: The capital expenditures included in this budget are all in our Information Technology department for replacement of computer aided dispatch equipment as well as server upgrades that have reached end of life.

<u>Communications Center Expansion</u>: In 2019 OPCD announced the beginning of a facility expansion project to meet the growing needs of the agency. The total estimated cost of the project is \$26

million dollars and as a political subdivision of the State of Louisiana, OPCD has submitted a request to the state to fund up to 75% of this project.

### **VI.** Conclusion

In accordance with the Louisiana Local Government Budget Act and Louisiana Legislative Act 155 (1982) as amended, the following actions have or are scheduled to occur relative to the Budget.

- 1. The Executive Director, in consultation with the OPCD Board Chair, prepares the proposed OPCD Budget, the accompanying Budget Message, and the Resolution by which it will be approved to proceed.
- 2. Notice is given that the public may inspect the proposed budget.
- 3. A public hearing is held (after notice).
- 4. The New Orleans City Council approves the OPCD year 2021 Budget.
- 5. At its next regular quarterly meeting in November, and in open session, OPCD Board approves the Budget and orders it implemented.
- 6. Notice is published that the above actions have been taken.
- 7. The budget and supporting data are submitted to the Louisiana Legislative Auditor.

This budget message has been prepared in accordance with LRS 39:1305 (c)(1), and is respectfully submitted,

June 7. mori

## 2021 Budget Hearing New Orleans City Council

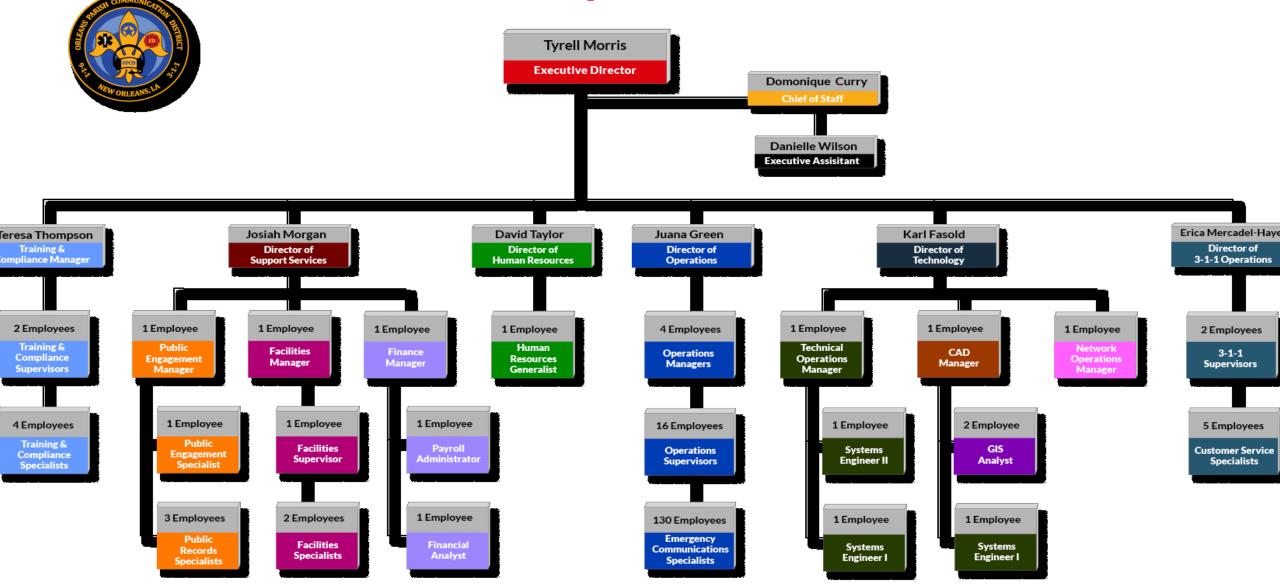

Orleans Parish Communication District 11/16/2020

## **Department Overview**

- Orleans Parish Communication District (OPCD) is an independent political subdivision of the State of Louisiana
- Primary public safety answering point (PSAP) and emergency communications center (ECC) in Orleans Parish
- Board of Commissioners consists of 11 members, 7 of those positions under Mayoral control
- Elevated to a position of international leadership in the emergency communications industry

### Orleans Parish Communication District Organization Chart

OUR MISSION:

Get the Right People to the Right Place at the Right Time Better than Anybody Else in the World

One City. One Agency. One Mission.

# Organizational Culture.....

## 2020 Accomplishments

Teresa Thompson Training & Compliance Manager Registered Public Safety Leader

Juana Green Director of Operations Certified Public Safety Executive LaCher Marshall Training & Compliance Supervisor Registered Public Safety Leader

# Congrats to our team

•••••

## Deployed Public Facing Life Safety Technology

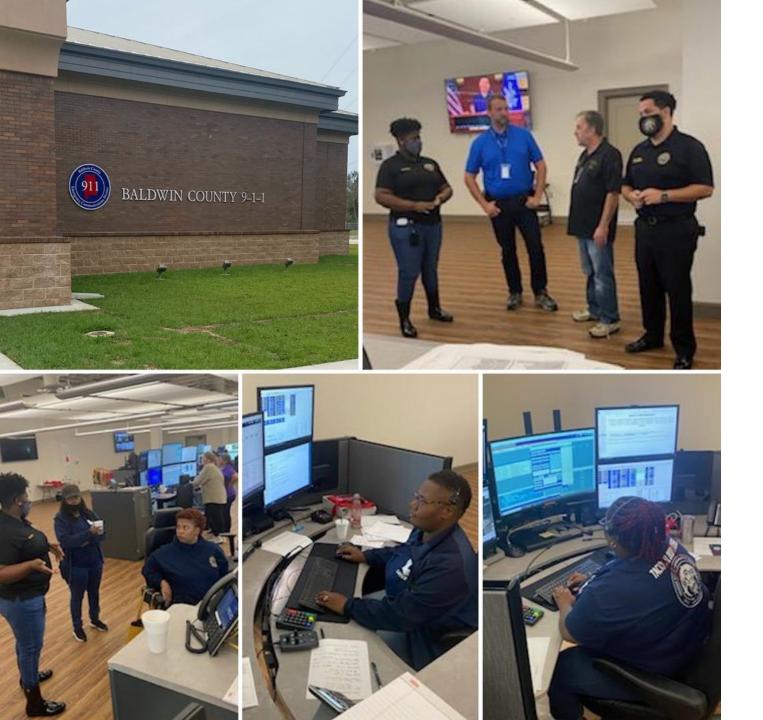

## Text-2-911

## LA-TERT Deployment

# EMERGENCY CALL

### 2020 Work Product

• The public safety calls and responses is largely due to the major reduction in events happening throughout the city. The increase in 3-1-1 calls is directly related to the city's response to COVID-19.

Description	CY	ΡΥ	Variance
Public Safety Calls	599,166	620,017	(20,851)
Public Safety Responses	475,448	538,750	(63,302)
311 Calls	209,355	178,996	30,359
311 Service Requests	86,729	72,817	13,912

## 2021 Goals and Projects

- Complete forklift upgrade to the Emergency Services Internet Network
- Bring picture and video to the 9-1-1 center
- Enhance Indoor Mapping Technology
- Fork-life upgrade of 9-1-1 Telephony System
- Deploy Parish-Wide Law Enforcement and Jail Management System
- Deploy text to 3-1-1 services

## ECC Expansion Project Update

• OPCD has submitted a capital outlet request to the state to fund 75% of the project. This measure will be voted on in the spring during the legislative session.

## 2020 Budget Summary

	Personal Services	Other Operating	Total
2020 Adopted Budget	13,560,826	3,439,381	17,000,207
2021 Proposed Budget	13,183,203	3,532,912	16,716,115
Variance	(377,623)	+93,531	(284,092)
Variance	(377,023)	T 33,33 I	(204,092)

### **EXPLANATION OF VARIANCE**

Personal Services – Several senior employees retired from the organization reducing the overall salary liability.

Other Operating – OPCD is constantly evaluating our cyber security position to protect our critical infrastructure. The variance shown are fees related to network hardening and the deployment of text and video to 9-1-1 services.
